Eye Check Screener Test Cheat Sheet

The Eye Check Screener (5 ft.) is recommended for children ages 3 to 5.

Set Up
- Find a quiet, well-lit room with minimal distraction from outside noise or other students.
- The chart should be placed at the child's eye level. (If standing, chart should be held at screener's waist)
- Measure and mark (with masking tape or Happy Feet) 5 feet from the chart.
    - **NOTE:** With Happy Feet, measure 5 feet to the **middle/arch** of the foot.
- Use alcohol wipes to clean the occluder glasses between turns 3-4 times or until they dry out.

Testing Procedure: Eye Check Visual Acuity Test
1. Bring the children into the screening room.
   Greet the child you are about to screen and briefly explain the 'game'. Look for signs of vision problems (i.e. Appearance, Behavior and Complaints).
   Note: Any sign of the ABCs (Appearance, Behavior, Complaints) is an automatic referral (even if they pass the chart screening). Please make note of this on appropriate documentation.
2. Review the shapes with the child at a close distance using the lap card.
3. Position the child 5 feet from the chart. Have the child stand with his or her **arches** on the masking tape, or line up his or her feet on the Happy Feet cutout.

4. **Complete testing at 5 Feet**
   a. Using the lap card, review the 4 symbols with the child.
      Note: The child must be consistent in what they call the symbol.
   b. Confirm the age of the child, and select the age-appropriate flip book.
   c. Check the position of the child for testing. The chart should be at the child's eye level.
   d. Without occlusion, have the child practice pages 1 through 4.
   e. Place the occluder glasses on the child so that the **left eye** is covered.
      Note: If the child is wearing glasses, do not remove them.
   f. Have the child name the symbols on pages 5 through 8.
      Note: If the child is non-verbal, he or she may match the symbols using the lap card.
   g. Place the occluder glasses on the child so that the **right eye** is covered.
   h. Have the child name the symbols on pages 9 through 12.
   i. The child needs to get **at least 3 out of 4 symbols in each eye to PASS.**
   j. If the child <u>does not</u> get 3 out of 4 in either eye they DO NOT PASS.
   k. Record PASS/DO NOT PASS on appropriate documentation.
