

VISION MILESTONES

4 Months - 7 Months

As a parent or caregiver, it is important to know that healthy vision plays a role in a variety of aspects throughout life

4 MONTHS - 7 MONTHS

Baby moves eyes from person to person

Baby's eyes are straight

Baby purposely reaches for objects

Baby follows objects both near and far

Helpful Tip

At 5 months, baby begins to see colors. This is a great time to start reading colorful children's books!

*Milestones can vary up to six weeks

*At any time, if you have a concern contact your pediatrician
